

Fotios Pasiouras

Fotios Pasiouras is Full Professor of Banking and Finance at the MBS School of Business (France). Additionally, he is one of the Editors-in-Chief of the International Journal of Banking, Accounting and Finance, Associate Editor of the Journal of Financial Stability, Book Series Editor of the Palgrave Studies in Financial Risk Management, and Adjunct/Visiting professor at the Hellenic Open University. Finally, he is a founding member and Secretary of the Board of Directors of the Financial Engineering and Banking Society, a non-for-profit society that promotes research and academic networking in the fields of banking and finance.

He holds a bachelor's degree in Economics (Aristotle University of Thessaloniki, Greece), an MBA in Finance (Coventry University, UK), a PhD on European banks' mergers and acquisitions (Coventry University, UK), and an ACCA Certificate in International Auditing.

He has held faculty positions in the UK (University of Bath, University of Surrey, University of Portsmouth) and in Greece (Technical University of Crete - TUC). He has been a Visiting Professor at the University of Portsmouth (Faculty of Business & Law), Co-Coordinator of the EURO Working Group on Efficiency & Productivity Analysis (European Operational Research Society), Co-Director of the Centre for Money, Banking and Institutions (University of Surrey), Co-Director of Research at the Financial Engineering Laboratory at TUC, Scientific Director of the Innovation House at TUC, and Subject Editor of the Emerging Markets Review (journal) and the Journal of International Financial Markets, Institutions and Money.

His research focuses on risk, performance, corporate governance and regulations in the financial industry. Within his context, he has done extensive work on the role of various types of regulations (microprudential, macroprudential and financial consumer protection ones) in shaping bank efficiency, profitability, lending, and risk-taking. Furthermore, he has done a lot of work on the development of credit risk models, as well as auditing models for the detection of falsified financial statements of both banks and non-banking corporations. In his most recent studies, he has explored aspects related to ESG and Fintech. The outcome of his research has appeared in around 100 papers published in well-known international academic journals including: Management Science; Journal of Money, Credit & Banking; Journal of Banking & Finance; European Journal of Operational Research; Journal of Business Ethics; British Journal of Management; Journal of Financial Stability, etc. Finally, he has (co)authored and (co)edited various books on banking and finance, like for example: "Application of Quantitative Techniques for the Prediction of Bank Acquisition Targets" (World Scientific Publishing, 2005), "Greek Banking: From the Pre-Euro Reforms to the Financial Crisis and Beyond" (Palgrave Macmillan, 2012), "Efficiency and Productivity Growth: Modelling in

the Financial Services Industry” (Wiley, 2013), “Sustainable Finance and ESG: Risk, Management, Regulations, and Implications for Financial Institutions” (Palgrave Macmillan, 2023).

His research has received awards from academic institutions and publishers, and he frequently appears within the top 2% to 5% of authors/researchers in economics and finance worldwide in various rankings (e.g. SSRN, IDEAS/RePEc, Baas - Boyack - Ioannidis list). Google scholar gives over 12,000 citations to his research studies.
